

INDUSTRIAL FIRST AID AND CPR

TRAINING

HRDF
Claimable

OVERVIEW

Accident and Emergencies can happen anywhere and any time. The likelihood of this happening in the work place increases significantly especially when the work involved is hazardous and dangerous. Loss of productive time, personnel and money is a very well recognized aftermath. Casualties succumb to their injuries before they reach medical facility and the company loses its most skillful, productive hand. Fortunately this is preventable with proper training. Proper handling of accident victims contribute significantly to the final outcome for this victim.

OBJECTIVES

- The Aims of this program is to equip participants with knowledge and skill on First Aid, CPR or Emergency Response and AED(optional) to enable them to deal with common injuries and life – saving skills at workplace.
- Able to deliver emergency care services as a first aider or emergency response team skillfully in your organization.
