

# BRING YOUR PROJECTS IN (B.Y.P.I) PROJECT MANAGEMENT WORKSHOP

## INTRODUCTION

This course is intended for executives in technical and non-technical work areas, who need to acquire working knowledge and skill in planning, monitoring or tracking, measuring the implementation of client's projects (for both generic, engineering, and IT specific projects). Their participation through an action-learning methodology will facilitate an immediate transfer of such competency to workplace. This course is carefully designed to provide the best mix of experience, theory and practice in an adult learning environment.

## TARGET MARKET

- Executives who are directly involved in planning, estimating, scheduling, monitoring (tracking), and measuring, and reporting the implementation progress of projects. Examples, case studies and templates are provided.

## COURSE OUTLINE

- Project Management Background
- Project Initializing Process
- Project Planning Process
- Project Execution Process
- Project Closeout Process
- Project Failure and Success Case Studies

## OBJECTIVES

- To provide project management fundamentals (i.e., the project management framework) for participants to understand the project management methodology.
- To understand the use of project management tools for initiating, planning, executing, controlling and closing project

**SBL CLAIMABLE**
